Folding luggage rack

Written by cryrnr at Jun 20, 2020 8:12 pm

This folding luggage rack came with my 2-litre but I've never used it. Mounts to chassis rails via existing holes (the wing stay bracket holes plus one other) with long bolts through spacers (spacers, as seen in photos, included but not bolts). Folds against spare wheel when not in use - securing strap(s) needed, I'm guessing leather originally, but I've never had any. No idea if this is a period accessory or some later addition but nicely made and substantial. Quite useable 'as is' if you want oily-rag patina. Otherwise have it bead blasted and painted and it will look as new. Does £200 (plus postage if needed) sound reasonable. Located New Forest
