3 litre windscreen and other parts for sale

Written by bill at Sep 10, 2019 9:06 am

I have been trying very hard to have a clear out ! All circa 1932 3 litre parts. I have a windscreen which came off my 3 litre originally. It may be an altered 2 litre one - I am not sure. I took it off my 3 litre to put on a fold flat screen. I have tried to post a photo here but cannot work out how to resize it for posting. Let me know if you are interested and I will send a photo by email. Price £300-400 ? Is that reasonable ?

Also have 4 engine mountings and various rectangular engine cover side plates. An original clutch and flywheel, a dynamo and the front engine casting (which has the magneto platform and water pump cross shaft etc). Also some camfollowers somewhere I think ! Member T16. I may have other smaller items if I can find them ! Send me an email or call for further information.

Many thanks.
