Dear All,

You will be pleased to hear that my project has now found a new owner. The car will be finished with a 2-seater sports body on it and he gets two engines and two pre selector gearboxes.

This a great result, especially bearing in mind it had no engine and gearbox when I found it. Also, it is made up as a special out of a pile of rusty bits - albeit mainly from one car - so we have not broken up a perfectly good saloon to make a racer.

Good news all round I think.

Colin

Hi Colin,

I was wondering about the fate of this special. Have you any photographs to share, please?

Atb,

Tim

I sold it.

It now looks splendid with a 2-seater special body but I do not have any photos to share on this site.
