Looking at the results, a lot of unsold cars with over inflated estimates.

However, the Feltham cars did well overall for once at Bonham's

Classic Car Weekly and Classic Car Buyer both featured pictures and short write-ups on this car in their auction round up for the Bonham's auction from this weeks issues

It appears that the car got a round of applause when it sold for £89,420, good to see another 3.0 litre dhc doing well, one hopes a sign of things to come for the DB-Lagondas, and not before time of course.
