More Ideas to use the forum

Written by Peter S30 at Jun 05, 2008 9:28 am

It is up to all users to make the forum more attractive, some ideas:

you can post storys regarding work on your car, trips you did, troubles you had and solved...

you can edit your storys whenever you want, that means you can for example continue a restoration story. For this simply log in, go to your post and click on "edit" instead of "reply" (you can only edit your storys of course not one from somebody else)

Enjoy, Peter
