

Lagondaforum: Fog Lamp

Fog Lamp

Written by reevsy at Jul 22, 2008 4:36 pm

Hi All I'm looking for a fog light Lucas SFT 700s as fitted to my 3 ltr DB Lagonda in any condition. The only part I need is the large nut and the hollow bolt that the wire passes through and holds the lamp to the valance. My own Keeps coming loose as the tread seem to be damaged.

Peter

I Now have a fog lamp so disregard the above Thanks.

Peter
