

Lagondaforum: Does anyone know this 1939 LG6?

Does anyone know this 1939 LG6?

Written by mjmchmn at Sep 15, 2011 2:50 pm

Greetings, Lagonda enthusiasts!

I'm a writer with Hemmings Motor News in the US, and I've been asked to put together a feature story on the 1939 LG6 long-wheelbase saloon formerly owned by Scottsdale, Arizona's Barry Briskman. This largely original car is grey in color, features a sunroof and wears the registration plate, SN 8865.

We'd photographed this car five years ago, and have just now pulled it out of the files to find that it's no longer in the same hands.

I'm also looking for a good source of information about this model, both historical and regarding mechanical specifications, so that I can fill out our extensive Specifications page.

I appreciate any leads you may be able to offer!

Kind regards,

Mark McCourt
