

Lagondaforum: Blocks and Heads

Blocks and Heads

Written by Julian at Apr 04, 2012 12:14 pm

Hi All,

Thought I would post some interesting info.

We at LMB are now putting into production Lagonda V12 Cylinder Blocks and Cylinder Heads, these will be updated with all improvements we do to the old ones for improved coolant flow etc. but will look absolutely standard and all parts will be interchangeable with standard parts.

Quality and uniformity of machining will be MUCH higher though! and materials will be improved.

Anyone interested, please drop me a line.
