

Lagondaforum: Jacking point plug alternative

Jacking point plug alternative

Written by randall977 at Jan 18, 2014 2:19 pm

Four jacking point plugs from most AM dealers cost around £75, which I think is fairly dear for bits of rubber. Whilst not wanting to do anyone out of any business, four jacking point plugs for a Morris Minor cost around £7 and fit pretty well. They are slightly loose but wrap a bit of insulation tape around the insert and they fit nice and tight.

That's my tip for the day.
