Windscreen required

Written by reevsy at Apr 06, 2008 11:51 pm

Having problems locating a windscreen for my 1957 3 ltr drop head it's the one with the square angels at the bottom any help would be most appreciated. :(

Peter

ask Michael (B61, I bought his 3ltr, more about this to come) he has one and forgot to tell me before the car was transported to me, so shipping would be to expensive now. He asked me 350 GBP for a new (reproduction), same price as he paid some time ago he said. 🙄

A very late reply but others may need it too:

here is a source for classic car screens

<http://www.classic-autoglas.com/aston-martin-lagonda-3-litre-frontscheibe/1641>. They quoted 471 EUR plus shipping and VAT for the front screen (not in stock, produced on demand)

I know that this topic is a bit cold but I am trying to locate windscreen rubber for 1955 3L mk2 dhc. Does anyone either have some, know where they can be sourced or who made the extrusion for the member who posted the image?

Thanks

William
