

Lagondaforum: 2 Litre steering drop arm

2 Litre steering drop arm

Written by H 54 John at Jan 31, 2016 2:25 pm

Urgently wanted - steering drop arm for a 2 litre. This is for the Marles steering box so fitting is by taper and Woodruff key. Thanks!

Hi John,

The 4.5 litre arm will also fit and this will also quicken up the steering as it is a little longer, so if you want a little more feel and better control then fit the 4.5 arm, only drawback is slightly more effort needed but on a 2 litre it should be almost insignificant.

Regards,

Julian

Hi Julian

Is the drop arm on a Marles box the same fitting as it is on a Bishop Cam one?

Could be useful.

Colin

Hi Colin,

We do the conversion the other way round to lighten the steering on the 4.5 for "old people" 🤪 🤪 Ooops 🤪

So they for sure fit each other without problems.

Regards,

Julian
