

Lagondaforum: LG45 Zenith fuel filter or element

LG45 Zenith fuel filter or element

Written by Bill LG45 at Mar 19, 2016 11:41 am

Hi all,

Looking for a new filter element for the Zenith fuel filter on my LG45. See photo attached of one on another car.

This is the type which amounts to a stack of serrated discs held within a brass cage.

Happy to purchase element or a complete filter if anyone has a decent one to spare?

Thanks

Bill
