

Lagondaforum: Wanted: Light Axle CWP

Wanted: Light Axle CWP

Written by Carlton at May 17, 2016 9:31 am

Does anybody have or know of a serviceable light axle crown wheel and pinion that they would be willing to part with? I can offer a club heavy axle cwp as a swap!

Kind regards

Tim

Many thanks to a combination of the Suffolk mafia, club spares, David Ayre and some spannering on my account I have a replacement diff and cwp. Looking forward to some Lagonda motoring and competition with what is left of the summer.

Tim
