Front and rear bumper rubber

Written by reevsy at May 01, 2008 8:28 pm

Hi All, what are others using for the rubber gasket around the front and rear bumper mounts? Sorry don't have access to my car for a photo. Its the rubber? that goes round tube that mounts the bumper to the car

Peter

I have used a section cut out of a corrugated water hose, right diameter at the smaller dia. and looks fine.
