German version #0192 of Bernd Holthusen's LaGonda book

Written by garnaes at Sep 30, 2016 8:13 pm

I am considering the sale of my numbered copy of Bernd's excellent book; the book and dust jacket are in as new condition, but the fabric covering of the slip case has pulled away in several over-lapping spots

(I guess it did it's job), I was offered about 150 pounds, a couple of years ago but declined the kind offer. I believe it will cost $60.00 US or more to ship to Europe. I'm open to offers!

I am sure it is worth more than you were offered two years ago- how much would you like in £GB?

I have the German edition. I do not mind it in this language because I can use my schoolboy German plus Google Translate to enjoy the text.

However if anyone wants to swap it for the English version, I would be interested. Send me a mail to colin@fulvens.com

My copy is immaculate.
