This is a well known car in the club with nearly 50 years with the last owner who had done most of the maintenance himself. Having seen this car a number of times, I can state strongly recommended for viewing.

Sold originally with 2.6 litre engine which was then upgraded at the factory in 1954 with 3.0 litre engine when this became available.

H&H Classics Limited | Imperial War Museum, Duxford - 26/07/2017

Estimate: £70,000 - £90,000

It wil be interesting to see what this car sells for.
