Hub reconditioning - who does this now?

Written by Roger Seabrook at Mar 06, 2018 6:22 pm

Does anyone know of a firm that will recondition splined hubs (ie re-spline, rebuild taper, and rebuild thread)? Years ago Cottrell Gears in Small Heath did mine, but they have closed down. The front hubs of my saloon are worn.

Try Orson Equipment of Dudley. telephone 01902 906290.

They make all sorts of hubs and are very helpful I have found.

Thank you both. Orson only makes them, they don't recondition. I will try MWS.
