Oakleys question:

I would like to contribute to this Forum but I find it very complicated. I want to submit a new posting with a new subject in the 2 Litre section. Can anybody tell me how to do this?

Many thanks,

Oakley.

Bobs answer:

Hi Oakley

Go back to 2litre "other" or "engine" ...and open new topic.

Give a title a text and submit and - like a wonder- your post will appear in the 2 litre section.

Very easy, even I can do...
