

Lagondaforum: syncromesh cone for G9 gearbox

syncromesh cone for G9 gearbox

Written by bill at Jun 12, 2020 11:23 am

has anyone had experience of obtaining new syncromesh cones for 3rd and 4th gear on the G9 gearbox. I cannot seem to find anyone who supplies these - nothing mentioned in the club spares.

Are these always made individually or is there a supplier anywhere ?

Many thanks for any help.

Hi Bill,

We can make these for you,

Do you just want the brass ring or the complete unit with gear?

Gears need to be paired though unfortunately.

Jules

Hi Julian

Many thanks for the reply.

I just need the brass ring but I will email you direct if I may at HCS.

Many thanks.
