Lagondaforum: 2 Litre Cylinder Head Paint Colour

2 Litre Cylinder Head Paint Colour

Written by Lagonda1928 at Aug 31, 2020 1:18 pm

The paint on my 1928 2 litre cylinder head would benefit from a "refresh". If I've manged to attach the photo correctly then hopefully you can see that it's currently light grey which I assume is close to the original colour. I hence wondered if anyone can recommend a good equivalent and ideally supplier for either a small tin or aerosol. I've checked on the club website and dont think they stock any, which might be something to consider going forward ?

Looks pretty similar to the original paint on my V12 engine, so perhaps there is a case for supplies to be stocked by Club Spares. One of the few spares that would suit all, or most, pre war Lagondas.
