DB Lagonda Spark Plugs

Written by reevsy at Aug 15, 2008 11:10 am

I am told NGK C6HSA is the correct spark plugs for the 2.6 and the 3 litre these plugs can be obtained from carsparlplugs.com at a cost of UK £2.12 each inc Tax, postage to be added.

Hi Peter,

I have ordered C6HSA for my engine (many suppliers on the internet, cost 2EUR here) Will take a few months to get my engine done so that I can test it. What is your conclusion on your spark plug testing so far?

Peter
