SU carburettors for Lagonda, some info

Written by Peter S30 at Sep 08, 2008 9:13 am

Hi all,

as I am working on my V12 SU carburettors at the moment, here is some info I came across:

A table with details for SU carburettor (received form yted). Sorry original scan was not better it is not my compression that makes it a bit difficult to read

Specifications for different Lagonda models and SU tuning help, one in English and one in German.

Peter
