Whats this???

What's this? a 12/24 radiator, hood, head lights and the late side lights, but definitely a 11.9 body and windscreen.

1924 12/24 Lagonda wich participated in the 1965 Rally in New Zealand, and it's owned by Barry Robert of North Island Number plate CY 2492

The sole surviving 11.9 L with some 12/24 parts? (thats what I think) Or perhaps a late one made from old parts or mixture? Who can tell more?

It's an 12/24 L (came before the LC)
