Wanted: LG45 Dynamo Coupling, Front Luvax Shocks

Written by JohnArizona_36LG45S1 at May 25, 2009 10:05 pm

I am in need of a new rubber coupling for the 4.5L dynamo - Spares only has 2L.

Also, does anyone have a source for Luvax shock absorbers (dampers) - the ones on mine were replaced with tubular shocks some time ago.

Any hints for either of these would be welcome. More parts will probably be required as my rebuild proceeds and I discover EXACTLY what's missing. (For instance, I think I'm missing interior door handles and window winders - unless they're in another box)!

Thanks for your help.
