

Lagondaforum: Water pump packing

Water pump packing

Written by adamgentilli at Jul 30, 2009 8:41 am

Could I please have some advice on the best material for water pump packing. Shortly setting off to Slovenia but have now identified the source of a water leak. Before I take it apart it would be useful to have some advice on the best "string". Desperately hoping that the shaft is in reasonable order!
