removal of obsolete posts

Written by Peter S30 at Oct 09, 2009 8:20 am

We have some obsolete posts on our forum, mainly parts for sale on e-bay. I will remove them. If you have posted something that is no longer valid (e.g. search for a part or offer of a part for sale). Please log in and delete it.

remark: I propose to leave such posts that have had some discussion, even if the for sale or wanted is no longer true. The discussion may still be interesting. If you have been searching for an item and found it, simply post as a reply that you found it

Peter
