Hi Folks

Amazing!

I don't think I was aware of this one.

It's a model 'M' 2 seater coupé, and definitely an 11.9 not a 12/24. It is certainly seriously dismantled. Missing wheels is not that big a deal but the back axle is challenging though possibly not impossible, bearing in mind they made a lot of these cars.

Great fun for someone. Thanks Patrick for posting on this car.

Hi Folks,

I have spoken to someone who has enough spare 11.9 wheels for this car, and possibly a starter motor.

The early Lagonda network is working well!

We have still not located a back axle yet but one can always keep looking and asking. If someone is seriously interested in this car please send me a PM and we can correspond privately. I also know someone with a model 'K' 11.9 and I think they would be happy to show someone their car.
