Sidelights

Written by Carlton at Jul 05, 2010 6:50 pm

Good evening Lags...

I am desperately searching one or a pair of sidelight stalks for my car. I have one (driver's side) which I bought from an auto-jumbler who had just sold the other of the pair! The Great Lagonda Race beckons, so I am a bit up against it... all help much appreciated.

May be able to help. I have a pair of stalks, replaced by new ones, not very good condition but may get you over your problem.

Many thanks for getting in touch, Don. Looking forward to inspecting the stalks.
