

Lagondaforum: V12 some spare part info

V12 some spare part info

Written by Peter S30 at Jul 18, 2010 5:37 pm

I want to share some spare part information, especially things that were not exclusively made for the V12. If you want to add something, send me a mail, or post it, I will add and update the list from time to time. (Sources for parts exclusively made for the V12 are of course the club spares and LMB)
