

Lagondaforum: LG6 aluminium stg. column mounted choke relay lever half bracket

LG6 aluminium stg. column mounted choke relay lever half bracket

Written by h14 at Jul 25, 2010 8:57 pm

I need the other "half", ie the plain part, C section with 2 holes for the bolts. Previous clown owner managed to overtighten bolts & break it, I gave it to professionals to weld, who failed & then lost the remains.

Laurence

Hi,

Try Alan Brown and David Ayre. Both in club members book.
