Here is a picture of one of LT.Cmd.Warren Poole's M45 Lags (turns out he had 2 at that time) as it sat on the decks of the Bonaventure (read my other post) One of his son's resides in Australia and sent me this photo. Although not my car I do have the original number plates from the one in the photo . They are available to the owner of the car wherever it may be. I prefer to exchange for something Lag that I need. (long list!)
