### Rapide Wheel Trims

These are available from [AM Classic Car Trim](#) for £80 per wheel. I have ordered a set, they have limited numbers left but can manufacture to order.

The new wheel trims are excellent, AM Classics told me that they had made a set for a Rapide before - I wonder who for - David?

I suppose it could have been for my Rapide, about 10 years ago, although as I bought through a third party I never knew the actual maker, but I was aware it was a workshop in or near Coventry.

Thanks for the tip-off and help, Christian. We have acquired a set now. 🙏

How are things going with your quest to have replica bumpers manufactured?

Hopefully a team of Vietnamese children and old people are beating my new bumpers out of a sheet of stainless steel right now!

I have my originals but the inner hub caps are poor - the outer would polish up. TVJL did have a spare set...? These are typical of the ones I have;
