Any idea what Wefco charges? Rudy wants \$695 US plus shipping. That includes felt and belts for 8 gaiters but without grease fittings. Here is his order sheet. he also claims to specialize in Rolls Royce stuff amongst other items.

Doesn't say on Wefco site, but it looks like others also act as agents for them...one indicated a charge of £135 per spring.

Wefco themselves need you to complete a form detailing measurements so that they can provide a quote.
