

Lagondaforum: Rear Windscreen Demister Vents

Rear Windscreen Demister Vents

Written by Guy Vinall at Dec 04, 2011 9:10 pm

Help please. On the rear parcel shelf there are several vents for air to come through & demist. Can you confirm if the vents should have a metal cover similar to the front dash or just be cut outs in the leather glued down? Many thanks, Guy Vinall

Mine are two vents like the front but much wider with the blower in the middle (round vent). The material on mine is vinyl.
