Tool kit

Written by TVJL at Jan 24, 2012 2:33 pm

Hi guys,

Can any of you tell me, please, (or better still post a snap of) what should be in the Rapide's tool kit?

Many thanks.

Tim

Sadly all I have is the original jack (with tags) and spinner tool, do you have anything? I'm guessing the kit is the same as the DB4 kit?

Hi Christian,

We don't have anything, sadly (although I have acquired a spinner tool). Like you, I assume that the kit is the same as the DB4. Could you post a pic of your jack when you have a moment, please? I just want to make sure that I'm looking for the 'correct' item.

Best,

Tim

What is the hammer for? - no eared spinners on a Rapide...

Sorry for the slow reply, here's a photo of a few of the tools for the Rapide...
