

Lagondaforum: Parts book

Re: Parts book

Written by Julian at Apr 05, 2012 8:27 am

Hi Peter, that's fine. I added the post in all model sections because I actually hadn't seen this section until my last post can you believe! 🤔

As long as everyone notices we will all be happy 😊

Julian

Parts book

Written by Julian at Apr 04, 2012 12:44 pm

Hi All,

LMB is now producing a new updated parts catalogue with almost 6000 parts listed, this will be a written catalogue with pictures etc. rather than the old CD rom as we had complaints from several people who were not "computer compatible" and their hard drive was suffering by not being able to read this modern stuff 🤖)

I also think a catalogue is much more fun to read on the loo than a plastic disc! (And has dual function before anyone makes a wise crack ;o)

If you or anyone you know would like a free copy, please drop us a line with your mailing details and we will get one off to you as soon as they appear. info@LMBracing.be or phone +32 33540552

Regards,

Julian

Dear Julian,

looking forward to your catalogue for parts from 12/24 to V12, nice that you print it. Everybody who wants one will hopefully mail or call you. Please not by answering to this post on the forum. I also delete the copy of your posts to all specific cars, one announcement will do and is well placed here.

Regards

Peter
