Just spotted this on eBay, from a seller who has sold a fair few Lagonda items:

Should have guessed, it is an AMOC member.

Hope it is of interest.

This was on eBay a few weeks ago with a starting bid of £20 - unsold. I have to say that the seller is not helpful in replying to questions...not that I'm bitter that I missed it! These are also available new for £19.95 here;
