de Dion Rubber Bushes (new manufacture)

Written by David at Jul 22, 2012 8:02 pm

If there are other Rapide owners who have not received an email from either me or Alan H, who would like to join in buying from a production run of new rubber bushes for the de Dion suspension (in the area of the sprung trailing arms and transverse torsion bar springs), please send me a PM as a matter of some earliness please. The more we order, the cheaper they should be

The new bushes have been received from the manufacturer and very good they look too. Made to a new drawing and using the original AML specification but with slightly firmer rubber for greater resilience.

If you are interested in buying a set of 4 bushes (a car-set) please PM me soon - thanks
