There is a 2.6 litre, early 1950's chassis, bonnet, other body panels, and some mechanicals etc.

The chassis number details currently unknown, as and when known will add to this post.

Car is located in Sydney, so if anyone is interested, please let me know and will pass on contact details.

The chassis number is stamped into the chassis. At the front, right hand side, alongside the engine area where the chassis forms a "Y" and just behind the RH upper suspension mounting points.
