### LG45 Wiring Harness

*Written by davidbracey at Dec 31, 2012 5:56 pm*

I need a harness for my LG45 Saloon and the only one I've found online is from Auto Sparks

[http://www.autosparks.co.uk/product\\_info.php?products\\_id=2678](http://www.autosparks.co.uk/product_info.php?products_id=2678)

Does anyone have any experience of these?

Thanks,

David

Hi David

[See this thread](#)

Hope this helps.

Thanks David, I was pretty sure someone else would have been through this before me.

This will save me hours...

David

Good luck David,

Make sure you have plenty of earth points and straps. IMHO, wiring is a vile job to do on an LG 45.
