Hi Harald,

Do you have any of the aluminium bracket/collars which clamp to the steering column in the engine bay? My choke relay lever bracket is missing it's plain half; ie a "C" section casting with 2 lugs drilled for the clamping bolts.

Also missing a spare wheel mounting (late type) if you have one of those spare.

Laurence

Hi Laurence,

sorry but these are the last Lagonda spare I have.

if I hear anything I let you know

kind regards

Harald

Thanks Harald, also thanks for offering spares; I'm sure many spares linger in garages once the car itself has gone to another owner.

Laurence
