

## Lagondaforum: chrome speaker grill

### chrome speaker grill

*Written by jay at Apr 08, 2013 5:18 pm*

hi im looking for the chrome speaker grill from the front passenger foot well.its approx 7"x4" i have found the ones from a db 4/5/6 that go in the center consul but they are approx 7"x5" and look a bit squarer rather than rectangular.

i would assume these grills were used on other cars of that era.

any help appreciated

thanks

Hi Jay, I think they were used on some Jaguars or Rovers of the era - I bought one for £10 but that was a very good find. Otherwise they are available [here](#) for £100 - which is probably the going rate I'm afraid.
