boot carpet

Written by jay at May 03, 2013 10:43 pm

hi im looking to replace the boot carpet as its well worn now,just the floor section.
can anyone tell me if the same carpet is still available or where to get one made
thanks

It's unlikely that the original loop pile carpet is available - I've looked long and hard. Over the next few months I'm going to try and find something similar and will let you know what I find...

Jay hi

I would suggest following David's advice, these people have an excellent reputation in the AML world

The phone number is 01273 891989

Nothing to loose and yes if you want carpeting for your boot because it is worn out,a good place to start. Same material used for all the NP DB cars as well.

If he does have any original type carpet would you mind letting me know. Most of mine is fine but I don't want two different types of carpet - I think black pile is the only other alternative I can find. I've actually drawn up every bit of carpet both in the boot and cabin so I can have it remade - I know how to have fun!

I may have sourced a good match for the original carpet, I'm going to look at it tomorrow. if it is right I'll probably have enough left over for what you need. I'll let you know...

That is a very good match - well done!

Perhaps you could share the source with us. In my boot, it is the large floor mat which suffered when front brake caliper fluid split on it during storage.

Hi, it can be bought [here](#) (look at Cavendish - jet black is available but not shown) - I went to a Diamond Floors showroom to see it as it's not very far away... I'm replacing all of my boot carpet so the difference in blackness and texture won't matter...
