

Lagondaforum: Zenith UH carbs

Zenith UH carbs

Written by Bills at Feb 24, 2008 8:26 pm

I have two Zenith 36 UH carbs on my LC 2 litre. Does anyone know where I can find out more about these - technical manual would be useful as I am in blissful ignorance as to how they operate, (I just about understand SUs). My problem at the moment is how to set the fuel level in the float chambers, any advice appreciated. Thanks Bill
