

## Lagondaforum: Lock pin chrome bezel / surround - wanted

### Lock pin chrome bezel / surround - wanted

*Written by randall977 at Nov 04, 2013 10:59 pm*

One of my four lock pin chrome surrounds has lost it's prongs so doesn't stick in the hole. Anyone have a spare I could purchase?

Did you manage to find a replacement, or have you glued it in place ?

No, never found one. It just sits in place - actually not that much of a problem...

I haven't tracked down the part but it's almost exactly the same as the boot lid and rear door light switch escutcheons - except they have Lucas written on them.
