

Lagondaforum: Jackall parts

Jackall parts

Written by flat broke at Nov 07, 2013 4:08 pm

I was under the car this week and was shocked to discover the casting for the Jackall pump had fractured. I am looking into repairing it but it may make more sense to replace it. With cars still being parted out 🤖 , possibly a spare unit exists?

Tony

Tony hi

Sorry for delayed reply to this request !

If you haven't checked with the folks at Aston Service Dorset., that is always a good place to start. But make sure you let them know these are parts for a 3.0 litre or they will try and sell you some Jackalls from a V12, which are a different height and diameter.

If this avenue does not work out, email me, and I will try and help further.

Kind regards

Simon

Hi,

Drop me a pic at info@LMBracing.be and I will match it up for you and post. Cost? varies depending on what we have from nothing to next to nothing.

Glad to help

Regards,
Julian
