Patrick,

Thanks for the info. I'll look into this.

I now believe this is the only image of the car and there are no more to be found. Disappointing.

Just to flesh out the image a little - from what I understand my Great Grandfather (at the wheel) was a terrible gambler. At some point he lost the car and the family house and possibly his business too.

We believe the photo was taken in 1928.

Cheers

Geoff
