Window handles - LG45 pillarless saloon

Written by davidbracey at Jan 31, 2014 5:46 pm

Hello everyone,

I am in need of a window handle for my LG45 saloon and hope that someone out there may have one they are willing to part with. I thought I had tracked one down but now that it has arrived it is slightly different. Sound familiar?

If anyone thinks they may have one and is prepared to rummage around in their garages then I will ensure they are adequately recompensed. I attach a photo of what I am looking for.

Fingers crossed.

David

Dear All,

Thank you to Bob Thredder for helping me acquire the missing handle for my LG45 project.

Best wishes,

David

Hi everyone,

Sadly I'm in need of another window winder. Does anyone have a spare? Thanks,

David
