2/3 litre front brake drums for sale - PRICE REDUCED

Written by crymr at Feb 05, 2014 5:03 pm

I have a pair of 2-litre/3-litre front brake drums surplus to requirements. I believe these are from a batch made in the 1980s. They are unworn, clean, painted (black) and have been statically balanced. Thought to have completed less than 1000 miles. Can attempt to take/email close-up photos if you would like. Happy to package/post at cost, your choice of carrier. I'm surprised there has been no interest so how about £299? I'd prefer to know they are being put to good use rather than gathering dust in my garage!
