Just seen this, it's 125;

I believe it's just been reupholstered. The owner uses it regularly and has it in excellent running order.

Looks to be another short-term ownership car, ca. 2 years or so.

I think this is the car sold through Byron International for ca. £40k ?

It is available through Chicane Classics, if I read the advert correctly.

With LR101, LR133 and LR153 also available, there possibly might be a glut of cars in the market...
